

RISK ASSESSMENT FORM

TASK : B+E Training						RA No TI 01					
LOCATION : All											
STATUS OF EXPOSED PERSONS											
Instructor	√	Trainees	√	Observers	√	Others					
REVIEW DATE						13/11/12					
LAST REVIEWED						14/11/11					

TASK SPECIFIC HAZARDS IDENTIFIED	
1. Injury operating trailer.	
2. Injury in road traffic collision,	
3. Injury caused by reduced visibility.	
4. Injury during reversing	

SCORE EVALUATION			
SEVERITY OF HARM		PROBABILITY	
Multiple Death	10	Certain	10
Fatality	8	Very Likely	8
Major Injury	6	Likely	6
Lost Time Injury	4	May Happen	4
Minor Injury	2	Unlikely	2
Negligible	1	Very Unlikely	1

RISK EVALUATION													
RISK = A X B	A SEVERITY OF HARM						B PROBABILITY						(X) = Pre Control (O) = Post Control
	1	2	4	6	8	10	1	2	4	6	8	10	
Injury operating trailer				x							x		X = 48 O = 2
Injury in road collision						x				x			X = 60 O = 4
Injury reduced visibility					x						x		X = 64 O = 8
Injury during reversing				x						x			X = 36 O = 1
													X = O =
													X = O =
													X = O =

<p>CONTROL MEASURES REQUIRED TO REDUCE THE RISK</p> <ol style="list-style-type: none"> 1. Follow correct operating procedures using trailer. 2. Follow the rules of the highway code. Vehicle/trailer to be regularly maintained and checked daily. 3. When necessary use vehicle lights and wear high visibility clothing. 4. Have vehicle windows open, maintain all round observation, reverse with an attendant when possible, stop, de-bus and look if necessary.
